OPENING SCENES AT THE FAIR.

Yirginia Exposition Will Be a Grand

A SPLENDID DISPLAY OF EXHIBITS.

Among the Attractive Features is the Times Bureau, Where There is a Welcome for All-Notes and Incidents.

To the Fair. To-day will witness the auspicious inauguration of the Virginia Mechanical and Agricultural Bociety's exhibition of

1891. Numberless people will throng the gates. They will come from the Bay-washed shores, and where the wintry breezes blow upon the mountains. They will be here from the banks of the Potomac and from the grainscented valley of the Southwest. They will be present from far-off Bristol and from the lively little cities of Norfolk and Roanoke.

lively little cities of Norfolk and Roanoke. From all parts, corners and holes of the Commonwealth will they come and all will be amply repaid by the spiendid exhibits.

The scene presented yesterday in the main hall and about the Exposition grounds was an animated one. A perfect regiment of men were engaged in building all sorts of conceivable things, from minature Elifel towers to pigeon coops, from pyramids of flour bags to monuments of really made clothing from race tracks for bicycles to seven-pointed stars of fancy cakes. Bunting by the boit was being twisted about poles, railings and backgrounds.

hackgrounds.

Red, white and blue were the colors predeminating, and stars mingled with the cleth. Hammers wielded by willing hands made all conceivable inss, while saws went through planks as though forced by a locomotive. Painters were plying their brushes as though they were ranning a race, and sweepers and trush-gatherers were making enough dust to give everybody bronchial affections. dust to give everybody bronchial affections. THEY ARRIVE.

Every few moments wagons arrived at the door filled with everything from a typewriter to a safe; from a grand piano to a statue of versam from a grand piano to a statue of versam from a crate of roosters to a thoroughbred cow from a hand-painted sofa-scarf to a bartel of whisky.

Truckmen made the air melodious with their sing song counting; darkies gave imitations of wheelbarrow races by the way they handled the trucks, men risked their lives and limbs on shaky ladders, engines puffed, whistled and streamed, and the whole picture was a pretty illustration of how a lot of intelligent, hardworking, earnest men can get order and regularity out of chaos and disorder.

Many, however, had to work far in the night before they made sufficient progress to leave their ors, and at 6 o'clock this morning to will be a large number on labors, and at 6 o'clock this morning there will be a large number on hand to give their booths a haishing touch. By 10 o'clock everything will be in order, and be ready to receive the crowd who will be surprised at the magnificent showing. As a whole the Fair will be a success. The departments are all filled—some overwhelmingly so—and there are novelties which will interest and please in every class.

A BADICAL CHANGE.

As one approaches the former art hall the festive cock can be heard getting in his fine work by splitting the air with his crowing, and the early morning song is supplemented by the happy cackle of a lot of pretty-looking lens. The meson with his far tellhe the happy cackle of a lot of pretty-looking hens. The pigeon with his fan tail and soft eyes is also a occupant of the former confines of Thurnes and Apollos, and the exhibit will all during the Fair interest both the citizens of the metropolis and the denizens of

The cattle display is also a splendid feature of the exhibit. The stalls are all occupied by fine looking cows and other cattle, and they peacefully stand there, chew their cuds and gaze on the spectators with the most dreamy eves imaginate. Where the hogs and sheep live things are decidedly different.

orie about meal time, and the cause of the disturbance was bathing bour for the fat porkers. The latter were not exactly pleased with the idea, and they squested and squirmed about their pens like they were going to have an epileptic fit every minute. After the bath, however, they lay on the straw with perfect nonchalance, and seemed to say that exhibitions at fairs were not so bad after all. In one pen six little white pigs scramble over their mother like the Fat Men's Club playing leap frog, and in a pen opposite seven frite black nigsters grunt, steep and look as contented as the small boy on a base-ball fence. They are about a month old.

THE AMUREMENTS.

The grounds about the main hall look like a circus has struck it. Tents of all sizes and descriptions are dotted about the place, and you can see everything from the tattooed man to the wild lady from Borneo. You can have your picture taken while you wait, or you can appease your bunger by filling your self full of Coney Island sausages. You can rile on wooden girafes at the merry-goround, or you can knock the baby a slap in the law and receive a Hanover eigar for your physical efforts. You can buy a solid gold ring, package of envelopes and a baby elephant for ten cents, or you can see the three-faced man, the two-nosed duck and the mermaid for the small sum of a ne. You can eat pop-corn, drink pink nonade, chew peanuts and make yourself reasonably happy at a reasonable cost, and you can end the day's proceedings by digest-ing the whole menu with several rides on the

They said they were neither tramps nor crooks and they pulled out cards enough to show that they were entitled to Jay Gould's private car, but still they came in on a freight, and when the train arrived they were securely scaled in with boxes of starch, soap and canned fruit. They evidently come to the Fair, and it was as difficult to tell them from crooks as it was to distinguish between the different branches of Methodists at the Ecumenical Conference. A FAIR SUGGESTION.

Stores Requested to Give Their Employes a Chance to Visit It.

Exposition Buildings, Oct. 26 .- As an exhibitor at the Fair, and sincerely wishing it success. I desire to call attention to a matter which seems to be entirely overlooked, and, after talking with several wholesale and retail merchants, I suggest that all the wholesale merchants close their stores one day during the Fair, and the retail merchants half a day, so as to enable principals and employes an opportunity to visit the Fair. Concert of action is very desirable.

Two accidents happened on the Richmond and Danville railroad Saturday night—one at Wolf Trap and the other at Keysville. A freight train jumped the rails while pulling out of the side track at Wolf Trap, and Mr. Richard Jenkins of this city, who was acting as flagman, was slightly hurt in the side. Four cars were completely wrecked, and it is remarkable no one else was injured. The accident at Keysville was rather a singular one. Mr. B. W. Thaxton, of this city was standing upon the train with a pole in his hand. The pole came in contact with a switch target, and he was knocked from the moving train. One of his fingers was split open, and the side of his face was badly bruised. He was rendered unconscious for a time and was taken to a station near by, where he received medical treatment.

The bright little operatta, "Four Leaf lover," was presented for the first time last evening by a company of amateurs at Gibbs' Opera House for the benefit of the Meade-Memorial church organ fund. To unkind, and to particularize where all did such splendid work cannot be unkind, and to particularize where all did such splendid work cannot be done for want of space. The prologue, "Sleep Weil" as rendered by Mrs. Andrew Snelling was especially good, and Major Kirk Mathews as musical director and pianist was up to his usual standard of excellence. The chorus sang with a vim and snap not usually seen in amateur performances, and the drilling and denging of the cyusics was year gracefully dancing of the gypsies was very gracefully and prettily done. A large crowd was pre-sent, including a number of Richmonder's who gave vent to their feelings with much applause. The performance gave entire satisfaction, and will be repeated to-night.

FOOT-BALL.

The Richmond Teams Have Begun Their Practice at Island Park.

The two foot-ball teams of the Young Men's Christian Association had their first practice at Island Park on Saturday afternoon and again met on the field yesterday afternoon. Professor H. F. Smith, the physical director of the Association, acted as manager, while Mr. George Ainslie, in the absence of Mr. Allen Forts, acted as captain for both teams.

Although the men have not yet had much practice, isome of the playing was very good. On account of the State Fair the next practice will be held on next Saturday afternoon at 5 o'clock, but it is expected that next week the two elevens will play every afternoon. Arrangements have been made by which the players will start from the Association build ing, beginning next Saturday, promptly at 5 o'clock. They are expected to dress in their o clock. They are expected to dress in their suits in the gymnasium and will from there go in a 'bus to the grounds, from where they will return in the same manner immediately after the game, to take their baths in the gymnasium. The expenses of the transportation will be borne by the teams.

There was not an excellent attendance, only about three hundred being present, but the disorder created by applauding with canes and neels was equal to a crowded house.

"The Prima Donna" demonstrated decided talent as a playwright for Captain McCarty, but the amateurs who presented the play were not equal to the occasion. The lines are replete with excellent sallies of wit and anticlimaxes, but the performers did not seem to form correct conceptions and acted their parts with but little gusto.
